

Best Doctors®

Best Doctors, Inc. is transforming and improving health care by bringing together the best medical minds in the world to help identify the right diagnosis and treatment. The company's innovative, peer-to-peer consultation service offers a new way for physicians to collaborate with other physicians to ensure patients receive the best care.

Headquartered in Boston, MA, the global company seamlessly integrates its services with employers' other health-related benefits, to serve more than 40 million members in every major region of the world.

More than a traditional second opinion, Best Doctors delivers a comprehensive evaluation of a patient's medical condition – providing value to both patients and treating physicians. By utilizing Best Doctors, members have access to the brightest minds in medicine to ensure the right diagnosis and treatment plan.

Best Doctors' team of researchers conducts a biennial poll using the methodology

that mimics the informal peer-to-peer process doctors themselves use to identify the right specialists for their patients. Using a polling method and balloting software, that Gallup® has audited and certified, they gather the insight and experience of tens of thousands of leading specialists all over the country, while confirming their credentials and specific areas of expertise.

The result is the Best Doctors in America® List, which includes the nation's most respected specialists and outstanding primary care physicians in the nation. These are the doctors that other doctors recognize as the best in their fields. They cannot pay a fee and are not paid to be listed and cannot nominate or vote for themselves. It is a list, which is truly unbiased and respected by the medical profession and patients alike as the source of top quality medical information.

Gallup® has audited and certified Best Doctors, Inc.'s database of physicians, and its companion The Best Doctors in America® List, as using the highest industry standards

survey methodology and processes.

These lists are excerpted from The Best Doctors in America® 2017-2018 database, which includes close to 40,000 U.S. doctors in over 40 medical specialties and 400 subspecialties.

The Best Doctors in America® database is compiled and maintained by Best Doctors, Inc. For more information, visit www.bestdoctors.com or contact Best Doctors by telephone at 800-675-1199 or by e-mail at research@bestdoctors.com. Please note that lists of doctors are not available on the Best Doctors Web site.

WE'RE MORE THAN JUST A LIST

Best Doctors identifies and partners with the best medical experts across over 450 specialties and subspecialties to solve misdiagnosis and eliminate medical uncertainty.

Best Doctors®

“Most Americans will encounter at least one medical error in their lifetime.”

Institute of Medicine

“When it seemed like nothing was working, Best Doctors showed me that there was another cause for my problem.”

Best Doctors Member

WE'RE THE SOLUTION

Best Doctors is an employer-provided benefit that gives over 12 million eligible members in the U.S. and an estimated 40 million members worldwide a unique suite of services designed to do one thing: **eliminate medical uncertainty in a very uncertain landscape.** Best Doctors not only identifies the very best clinicians, it partners with them to review members' medical diagnoses and treatment plans as well as answer any questions a member may have—providing unparalleled clinical quality as an integral part of employers' benefits offerings.

Are you a Best Doctors member?
